9. Important User Information
Handling the headset
Do not bend, drop, crush, puncture, incinerate, or open the headset.
Repairing the headset
Never attempt to repair the headset yourself. The headset does not contain any user serviceable parts. For service information, choose the headset help from the warranty card. The rechargeable battery in the headset should be replaced only by authorized service providers.
Unplug the USB charging cable if any of the following conditions exist
• The USB cable or plug has become frayed or damaged.
• The USB cable has been exposed to rain, liquids, or excessive moisture. You suspect the headset needs service or repair.
• You want to clean the headset.
Avoiding hearing damage
Permanent hearing loss may occur if a headset is used at high volume. Set the volume to a safe level. You can adapt over time to a higher volume of sound that may sound normal but can be damaging to your hearing. If you experience ringing in your ears or muffled speech, stop listening and have your hearing checked. The louder the volume, the less time is required before your hearing could be affected.
Hearing experts suggest that to protect your hearing:
• Limit the amount of time you use the
• headset at high volume.
• Avoid turning up the volume to block out noisy surroundings.
Turn down the volume if you can't hear people speaking near you.

Maintaining battery life
Due to the physical nature of battery, the charging time may become longer and the actual capacity of battery may decrease. If you have any questions regarding the replacement of the built-in battery, please contact our service center.

8. Troubleshotting
No signal connection to the headset
Make sure the headset is charged and the USB Dongle is properly connected to the PC. Within the range of signal coverage, power on the headset again.
The headset is automatically switched off
The battery is too low. The indicator light on the headset is off.
Unexpected behavior
Reset the headset. (see p.5)
No audio at the headset
• Check the headset and the computer volume control. Make sure they are not in the lowest volume level or muted.
• Check the pair status of the USB Dongle and the headset. Make sure two devices are paired properly.
• Check if the PC Media Player is properly installed, and audio file is playable.
• The listening party can not hear you over the internet. Check if the microphone switch is on.

Warranty conditions
- Our products have a 3 year manufacturer's warranty, which is effective from the date of purchase.
- If there is a fault, return the product to your dealer and include an explanation of the fault, the proof of purchase and all the accessories.
- Please refer to the web site www.freetalk.me for missing components, such as the instruction manual, software or other components.
Excluded from the warranty:
• Damage caused by accidents or disasters, such as fire, flood, earthquakes, war, vandalism or theft. Incompatibility with other hardware/software which is not stated in the minimum system requirements.
• Under no circumstances will the manufacturer be held responsible for any incidental or consequential damage, including the loss of income or other commercial losses resulting from the use of this product.
